2-1 is “smoothbore weapons” under 20mm calibre and smaller automatic weapons while 2-4 is smoothbore of 20mm or more and larger armaments. These two categories comprise everything from handguns to powerful tank **guns** and large artillery mortars.

2-6 is ground vehicles and components.

2-10 is aircraft and unmanned airborne vehicles (UAVs)

Several other categories relate to other sophisticated military goods and technology of an unspecified nature.
